

INDEX

VOLUME 31, 1980

AUTHORS

A

Abo-Donia, S. A. See A. G. Sachde. 31:165-9.

Ahmedullah, M. See E. L. Proebsting 31:329-36.
Abstract. 31:196.

Al-Kaisy, A. M. See A. G. Sachde. 31:254-6.

All, J. N. Abstract. 31:103.

Alley, C. J., and D. H. Baron. Grapevine propagation. XV. Comparison of long and short bud shield below the bud; and standard and inverted bud cut in T-budding at high level. 31:95-7.

———, and N. L. Ferrari. Grapevine propagation. XVII. Chemical disbudding of cuttings. 31:65-8.

———, and A. T. Koyoma. Grapevine propagation. XVI. Chip-budding and T-budding at high level. 31:60-4.

Amati, A. See P. Capella. 31:216-18.

See A. Borea Carnacini. 31:219-26, 313-15.

Amerine, M. A. Abstract. 31:193. Reviews. 31:198, 307, 380.

Andris, H. See F. Jensen. 31:257-60.

Ashton, G. C. See C. L. Duitschaever. 31:337-43.

B

Baker, J. L. Abstract. 305.

Baron, D. H. See C. J. Alley. 31:95-7.

Bates, R. P., D. Mills, J. A. Mortensen, and J. A. Cornell. Prefermentation treatments affecting the quality of muscadine grape wines. 31:136-43.

Beelman, R. B., F. J. McArdle, and G. R. Duke. Comparison of *Leuconostoc oenus* strains ML-34 and PSU-1 to induce malo-lactic fermentation in Pennsylvania red table wines. 31:269-76.

Bell, A. A. See C. S. Ough. 31:122-3.

Berg, H. W. Abstract. 31:194, 367.

Borea Carnacini, P. Capella, and A. Amati. Volatile compounds of Albana wine. IV. Hydroxy compounds. 31:313-15.

———, ——, ——, and U. Pallotta. Volatile components of Albana wine. III. Carbonyl compounds. 31:219-26.

Boulton, R. The relationship between total acidity, titratable acidity and pH in wine. 31:76-80.

———. The prediction of fermentation behavior by a kinetic model 31:40-5.

———. The general relationship between potassium, sodium, and pH in grape juice and wine. 31:182-6.

———. A hypothesis for the presence, activity, and role of potassium/hydrogen, adenosine triphosphatases in grapevines. 31:283-7.

See R. E. Subden. 31:233-6.

Brander, F., R. E. Kepner, and A. D. Webb. Identification of some volatile compounds of wine of *Vitis vinifera* cultivar Pinot noir. 31:69-75.

Brummond, V. P. See E. L. Proebsting. 31:329-36.

Buteau, C. See C. L. Duitschaever. 31:337-43.

Cahill, J. T., P. A. Carroad, and R. E. Kunkee. Cultivation of yeast under carbon dioxide pressures for use in continuous sparkling wine production. 31:46-52.

Camaiani, G. See I. Moret. 31:245-9.

Capella, P., A. Borea Carnacini, C. Riponi, and A. Amati. Volatile components of Albana wine. II. 31:216-18.

See A. Borea Carnacini. 31:219-26, 313-15.

Capodaglio, G. See I. Moret. 31:245-9.

Carroad, P. A. See J. T. Cahill. 31:46-52.

Carter, M. B. See S. Geng. 31:174-7, 178-81.

Cawthon, D. L. See J. R. Morris. 31:323-8.

Chapman, A. A., and E. E. Hussey. The value of plant growth regulators in the propagation of *Vitis champini* rootstocks. 31:250-3.

Christensen, L. P. Timing of zinc foliar sprays. I. Effects of application intervals preceding and during the bloom and fruit-set stages. II. Effects of day vs. night application. 31:53-9.

See F. Jensen. 31:257-60.

Coombe, B. G. Abstract. 31:104.

Cornell, J. A. See R. P. Bates. 31:136-43.

Cornell, R. See R. E. Subden. 31:364-6.

Cresswell, K. J. See G. L. Robertson 31:162-4.

Crowell, E. A. See C. S. Ough. 31:344-6.

Culver, D. Abstract. 31:304.

D

Daniell, J. W. Abstract. 31:368.

Daudt, C. E., and C. S. Ough. Action of dimethyldicarbonate on various yeasts. 31:21-3.

——, and ———. A method for detecting volatile amines in grapes and wines. 31:356-9.

Diamond, F. See F. J. Gadek. 31:90-4.

Docampo, D. M. See B. C. Raju. 31:144-8.

Downton, W. J. S., and J. S. Hawker. Interaction of boron and chloride on growth and mineral composition of Cabernet Sauvignon vines. 31:277-82.

Drapola, W. J. See J. Radvanyi, Jr. 31:316-22.

Duitschaever, C. L., C. Buteau, and G. C. Ashton. Edulcoration of white wine with four different sweeteners. 31:337-43.

Duke, G. R. See R. B. Beelman. 31:269-76.

Dutcher, J. D. Abstract. 31:103.

Dyer, R. H., and G. E. Martin. A comparison of the AOAC spectrophotometric method for vanillin and a GLC method for vanillin and ethyl vanillin in alcoholic beverages. 31:37-9.

E

El-Tabey, A. M. See A. G. Sachde. 31:165-9.

El-Zalaki, E. M. See A. G. Sachde. 31:165-9.

Engle, L. Abstract. 31:104.

Eschenbruch, R. See D. A. Heatherbell. 31:114-21.

See G. L. Robertson. 31:162-4.

Evans, J. C. See C. R. Turkington. 31:298-302.

F

Farrow, J. A. E. See E. I. Garvie. 31:154-7.

Fawcett, W. R. See R. E. Subden. 31:233-6.

Ferrari, N. L. See C. J. Alley. 31:65-8.

Ferris, H. Abstract. 31:304.

Flaherty, D. Abstract. 31:304.

Fleming, H. K. See C. W. Haeseler. 31:237-44.

Fleming, J. W. See J. R. Morris. 31:323-8.

Freeman, B. M., T. H. Lee, and C. R. Turkington. Interaction of irrigation and pruning level on grape and wine quality of Shiraz vines. 31:124-35.

G

Gadek, F. J., F. Diamond, M. Hearney, M. McMullin,

M. A. Szvetez, and F. P. Verano, III. Preliminary investigation of deacidification methods and carbonic maceration of French hybrid wines. 31:90-4.

Gallander, J. F., and A. C. Peng. Lipid and fatty acid compositions of different grape types. 31:24-7.

Garlock, D. Cordon training study of young Chenin blanc vines. 31:200-1.

Garvie, E. I., and J. A. E. Farrow. The identification of *Leuconostoc oenos* from non-acidophilic species of leuconostoc, and the identification of five strains from the American Type Culture Collection. 31:154-7.

Geng, S., and M. B. Carter. Use of pretreatment information in design of experiments. II. Nearly optimum designs for homogeneous groups. 31:178-81.

——, ——, J. O. Johnson, and S. K. Perng. Use of pretreatment information in design of experiments. I. Nearly optimum designs for covariance models. 31:174-7.

Goheen, A. C. See B. C. Raju. 31:144-8.

Goodwin, P. B. See P. R. Hedberg. 31:109-13.

H

Haeseler, C. W., C. B. Smith, L. T. Kardos, and H. K. Fleming. Response of mature vines of *Vitis labrusca* L. cv Concord to applications of phosphorus and potassium over an eight-year span in Pennsylvania. 31:237-44.

Hagiwara, K., K. Ryugo, and H. P. Olmo. Comparison between responsiveness of selected grape clones to gibberellin applications and their endogenous levels in breaking buds and maturing berries. 31:309-12.

Hara, S., Y. Iimura, and K. Otsuka. Breeding of useful killer wine yeasts. 31:28-33.

Harris, A. R. Abstract. 31:368.

Hastrich, H. Abstract. 31:104.

Hawker, J. S. See W. J. S. Downton. 31:277-82.

Hearny, M. See F. J. Gadek. 31:90-4.

Heatherbell, D. A., P. Struebi, R. Eschenbruch, and L. M. Withy. A new fruit wine from kiwifruit: A wine of unusual composition and Riesling Sylvaner character. 31:114-21.

Hedberg, P. R. and P. B. Goodwin. Factors affecting natural and ethephon-induced grape berry abscission. 31:109-13.

Hegwood, Jr., C. P. See J. Radvanyi, Jr. 31:316-22.

Hill, A. S. Abstract. 31:305.

Hirschfeld, G. See Y. Shulman. 31:288-93.

Hostetter, G. See A. G. Meiering. 31:81-9.

See J. H. Paroschy. 31:227-32.

Howell, G. S., and N. Shaulis. Factors influencing with-in vine variation of the cold resistance of cane and primary bud tissues. 31:158-61.

Hoy, M. A. Abstract. 31:305.

Hunt, W. A. Abstract. 31:304.

Hunter, T. Abstract. 31:197.

Hussey, E. E. See A. P. Chapman. 31:250-3.

I

Iimura, Y. See S. Hara. 31:28-33.

J

Jensen, F., L. P. Christensen, H. Andris, F. Swanson, G. Leavitt, and W. L. Peacock. The effect of ethephon on Thompson Seedless grapes and raisins. 31:257-60.

Johnson, J. O. See S. Geng. 31:174-7.

K

Kansal, V. D. Abstract. 31:104.

Kardos, L. T. See C. W. Haeseler. 31:237-44.

Kasimatis, A. N. Abstract. 31:306, 367-8. Review. 31:370.

Kepner, R. E. See F. Brander. 31:69-75.

See R. W. Slingsby. 31:360-3.

Kido, H. Abstract. 31:304.

Kinzer, G., and P. Schreier. Influence of different systems on the composition of volatile constituents in unfermented grape musts and wines. 31:7-13.

Kliwer, W. M. See O. A. Sidahmed. 31:149-53.

Abstracts. 31:101-3, 105, 195-7, 303, 368-9.

Review. 31:306.

Koyoma, A. T. See C. J. Alley. 31:60-4.

SUBJECT INDEX

- A**
- Abscission. natural and ethephon induced compared. 31:109-13.
- Acid. abscisic, acetic analysis, abst. 31:103.
 acetic, enzymatic assay method. 31:170-3.
 chromatographic determination of. 31:294-7.
 acidity and adenosine triphosphatase activity role. 31:283-7.
 amino, nitrogen fertilizer effect on. 31:122-3.
 ascorbic, in geranium and grape. abst. 31:369.
 4-chlorophenoxyacetic effect on Thompson seedless grape berry. 31:149-53.
 deacidification, in wine by carbonates. 31:350-5.
 method and carbonic maceration. 31:90-4.
 defoliation, effect on Thompson seedless grape berry. 31:149-53.
 ethephon. see Ethephon.
 fatty, in different grape types. 31:24-7.
 gibberellic, effect on Thompson seedless grape. 31:149-53.
 levels in bud and berry, response compared. 31:309-12.
 in *Vitis rotundifolia* juice and wine. 31:316-22.
 K fertilization effect on juice, Concords. 31:323-8.
 kiwifruit wine. 31:114-21.
 malic, enzymatic assay for. 31:212-15.
 naphthalene acetic and disbudding in grapevine. 31:65-8.
 effect on berry thinning, abst. 31:101.
 Shiraz, irrigation, pruning effect. 31:124-35.
 sucrose effect on grape. abst. 31:103.
 taste index for wines. 31:265-8.
 total, Iraq wines. 31:254-6.
 titratable, pH wine relationship. 31:76-9.
- Alcohol. in Egyptian fresh and aged wine. 31:165-9.
 ethanol-water mixes and freezing. abst. 31:193.
 free fractions, Albana wine. 31:216-18.
 higher. effect of nitrogen fertilization on. 31:122-3.
 identification of in Pinot noir. 31:69-75.
 terpene in musts and wine. 31:7-13.
- Amine, volatile. detection in wine and grape. 31:356-9.
- Amino acid. See Acid.
- Analysis of wine, parameters for. 31:245-9.
- Anthocyanins. copigmentation of. abst. 31:192.
 pH effect on. abst. 31:192.
- AOAC spectrophotometric method on vanillin in wine studies. 31:37-9.
- Aroma. see, also, Volatile constituents.
