

AMERICAN JOURNAL *of* ENOLOGY & VITICULTURE

VOLUME 52 **2001** NUMBER 2

CONTENTS

The Copigmentation of Anthocyanins and Its Role in the Color of Red Wine: A Critical Review <i>R. Boulton</i>	67 - 87
The Secrets of Fizz in Champagne Wines: A Phenomenological Study <i>G. Liger-Belair, H. Lemaesquier, B. Robillard, B. Duteurtre, and P. Jeandet</i>	88 - 92
Effects of Seed Tannins on Enzymatic Decolorization of Wine Pigments in the Presence of Oxidizable Phenols <i>K. Yokotsuka and V.L. Singleton</i>	93 - 100
Genetic Comparison of Greek Cultivars of <i>Vitis vinifera</i> L. by Nuclear Microsatellite Profiling <i>F. Lefort and K.K.A. Roubelakis-Angelakis</i>	101 -108
Changes in Ellagic Acid and Other Phenols in Muscadine Grape (<i>Vitis rotundifolia</i>) Juices and Wines during Storage <i>M.N. Musingo, C.A. Sims, R.P. Bates, S.F. O'Keefe, and O. Lamikanra</i>	109 - 114
Proanthocyanidin Composition of Red <i>Vitis vinifera</i> Varieties from the Douro Valley during Ripening: Influence of Cultivation Altitude <i>N. Mateus, S. Marques, A.C. Gonçalves, J.M. Machado, and V. De Freitas</i>	115 - 121
Protein Adsorption by Bentonite in a White Wine Model Solution: Effect of Protein Molecular Weight and Ethanol Concentration <i>I. Achaerandio, V. Pachova, C. Güell, and F. López</i>	122 - 126
Morphological and Molecular Characterization of Grapevine Accessions Known as Albillo <i>M.T. Cervera, I. Rodriguez, J.A. Cabezas, J. Chavez, J.M. Martínez-Zapater, and F. Cabello</i>	127 - 135
Effect of <i>Saccharomyces cerevisiae</i> Yeast Strains on the Liberation of Volatile Thiols in Sauvignon blanc Wine <i>M. Murat, I. Masneuf, P. Darriet, V. Lavigne, T. Tominaga, and D. Dubourdieu</i>	136 - 139
Influence of Fining with Different Molecular Weight Gelatins on Proanthocyanidin Composition and Perception of Wines <i>C. Maury, P. Sarni-Manchado, S. Lefebvre, V. Cheynier, and M. Moutounet</i>	140 - 145
Influence of Wine Polysaccharides of Different Molecular Mass on Wine Foaming <i>M. López-Barajas, E. López-Tamames, S. Buxaderas, G. Suberbiola, and M.C. de la Torre-Boronat</i>	146 - 150

continued next page

Factors Influencing the Oxidation Phenomena of Sherry Wine <i>V.M. Palacios Macías, I. Caro Pina, and L. Pérez Rodríguez</i>	151 - 155
Research Notes	
Treatments for Pinking Alteration in White Wines <i>R.M. Lamuela-Raventós, M. Huix-Blanquera, and A.L. Waterhouse</i>	156 - 158
Differences in Phenolic Profile between Oak Wood and Stainless Steel Fermentation in White Wines <i>M. Ibern-Gómez, C. Andrés-Lacueva, R.M. Lamuela-Raventós, C. Lao-Luque, S. Buxaderas, and M.C. de la Torre-Boronat</i>	159 - 164
