

AMERICAN JOURNAL
of
ENOLOGY AND VITICULTURE

VOLUME 60 **2009** NUMBER 2

CONTENTS

ASEV Honorary Research Lecture 2008

- Application of Countercurrent Chromatography for Wine Research and Wine Analysis
P. Winterhalter 123 - 129
- Vegetative Growth Responses of Pinot gris (*Vitis vinifera* L.) Grapevines to Infestation
by Potato Leafhoppers (*Empoasca fabae* Harris)
M.S. Lenz, R. Isaacs, J.A. Flore, and G.S. Howell 130 - 137
- Adsorption Equilibria of Sulfur Dioxide on Cork
S. Lequin, T. Karbowiak, L. Brachais, D. Chassagne, and J.P. Bellat 138 - 144
- Genetic Basis for Osmosensitivity and Genetic Instability of the Wine Yeast
Saccharomyces cerevisiae VIN7
D.J. Erasmus and H.J.J. van Vuuren 145 - 154
- Water Flux of *Vitis vinifera* L. cv. Shiraz Bunches throughout Development
and in Relation to Late-Season Weight Loss
D.H. Greer and S.Y. Rogiers 155 - 163
- Grapevine Response to Soil Temperature: Xylem Cytokinins and Carbohydrate Reserve
Mobilization from Budbreak to Anthesis
S.K. Field, J.P. Smith, B.P. Holzappel, W.J. Hardie, and R.J.N. Emery 164 - 172
- Whole-Canopy Gas Exchange and Light Interception of Vertically Trained *Vitis vinifera* L.
under Direct and Diffuse Light
P.R. Petrie, M.C.T. Trought, G.S. Howell, G.D. Buchan, and J.W. Palmer 173 - 182
- Wine Tartaric Stabilization by Electrodialysis: Prediction of Required Deionization Degree
*P.A.M.H. Soares, V. Geraldes, C. Fernandes, P.C. dos Santos,
and M.N. de Pinho* 183 - 188
- Photosynthetic and Photoinhibition Behavior of Two Field-Grown Grapevine Cultivars
under Multiple Summer Stresses
A. Palliotti, O. Silvestroni, and D. Petoumenou 189 - 198
- Using Marker-Assisted Selection to Breed Pierce's Disease-Resistant Grapes
*S. Riaz, A.C. Tenschler, R. Graziani, A.F. Krivanek, D.W. Ramming,
and M.A. Walker* 199 - 207
- Water Loss from Fresh Berries of Raisin Cultivars under Controlled Drying Conditions
D.W. Ramming 208 - 214
- Microsatellite and AFLP Analysis of Autochthonous Grapevine Cultivars
from Galicia (Spain)
M. López, N. Cid, M.V. González, B. Cuenca, M.J. Prado, and M. Rey 215 - 222
- The Flavonoid Kaempferol Is Responsible for the Majority of Estrogenic Activity
in Red Wine
A. Zoechling, E. Reiter, R. Eder, S. Wendelin, F. Liebner, and A. Jungbauer 223 - 232

continued next page

Research Notes

- Influence of Inoculation with Malolactic Bacteria on Volatile Phenols in Wines
V. Gerbaux, C. Briffox, A. Dumont, and S. Krieger **233 - 235**
- Identification of New Synonymies in Minority Grapevine Cultivars from Galicia (Spain)
Using Microsatellite Analysis
M. Vilanova, M. de la Fuente, M. Fernández-González, and A. Masa **236 - 240**
- Passive Pathogen Movement via Open Xylem Conduits in Grapevine Graft Unions
G.A. Gambetta, T.L. Rost, and M.A. Matthews **241 - 245**

Technical Brief

- Investigating Differences in Tannin Levels Determined by Methylcellulose
and Protein Precipitation
J.F. Harbertson and M.O. Downey **246 - 249**
